TALBOT & DAVIS

AT 123 THAMES STREET

NEWPORT, R. I.

Terms:—$6.00 PER YEAR.

ADVERTISING TERMS:

Advertisements will be inserted for $1.00 a square of ten lines or less for one insertion, and 25 cents for each subsequent insertion.

Yearly contracts will be made with those who wish to advertise extensively, on reasonable terms.

The privilege of yearly advertisers (of all classes) will be limited to their own immediate business, in their own name. It does not include Legal Notices, Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the whole year will be charged for, or the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices or Articles to be inserted in the reading columns will be charged fifty per cent. extra, reckoning by the space occupied.

Special Notices will be charged one-third more than the usual advertising rates.

All transient advertisements must be paid in advance. Yearly or regular advertisers will be required to make quarterly payments on demand.

FISK & HATCH,

BANKERS,

AND DEALERS IN

Government and other Desirable Securities,

No. 5 Nassau St, N. Y.

recommend to Investors the

FIRST MORTGAGE BONDS

OF THE

CENTRAL PACIFIC R. R. CO.

This Company is constructing under the patronage of the

UNITED STATES GOVERNMENT,

the Western end of the

Great National Railway across the Continent.

Their line will extend from Sacramento, California across the Sierra Nevadas to the California State line traversing the RICHEST AND MOST FERTILE SECTIONS OF CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City.

It forms the SOLE WESTERN LINK of the only route to the Pacific which is adopted by Congress and AIDED BY THE ISSUE OF UNITED STATES BONDS.

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The FIRST MORTGAGE BONDS of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

FIRST. The rate of interest is SIX PER CENT. IN GOLD, payable semi-annually in the City of New York.

SECOND. The PRINCIPAL is payable IN GOLD at maturity.

THIRD. The cost of the Bonds, NINETY-FIVE PER CENT. and accrued interest, is TEN PER CENT. less than that of the cheapest Six Per cent. Gold Bearing Bonds of the Government.

FOURTH. The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for repayment.

FIFTH. Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.

SIXTH. The Security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equaled only by that of the obligations of the Government itself.

SEVENTH. The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the interest absolutely certain.

EIGHTH. At the present rate of Gold they pay nearly 8 1-2 Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive prompt attention.

FISK & HATCH,

Bankers & Dealers in Government Securities,

No. 5 Nassau Street, N. Y.

N. B.—All kinds of Government Securities received at the full market price in exchange for the above Bonds. Also,

ECCENTRIC CHARACTERS. Some years ago Paris had a number of eccentric characters; but they are dropping off, one by one, and no new ones spring up to take their places. First, there was a broken down gentleman clad in hideous rags, who used, day after day, and from morning to night, from year's end to year's end, to pace round and round the galleries of the Palais Royal; he went nowhere else, and where he ate, and where he slept, no one knew. Next, there was a poor crazy Italian, who, in winter and summer, in spring and autumn, in rain and snow, as well as in sunshine, used to figure in a light tucked dress and white hat, with a wreath of flowers—natural in summer, artificial in winter—round the hat and another round his neck. Thirdly, there was an American scholar, lean, lank and gaunt, dressed in long black gown and black skull cap. He used to pass his life in the Public Library, with piles of books before him. It was believed he was compiling a French and an American dictionary; but, though he toiled for years and years, the work never was completed. These three men are gone now. Then there was an old gentleman whom the street boys used to call General Rillard, who strutted about the streets, attired in a gaudy military uniform, with a big sword clanking at his heels. The uniform was unlike that worn in any European army; but was so royally and majestically adorned with lace and tassels that—he General flew at him like a tiger. This poor man had an ugly habit of stopping to talk to people he did not know; and, if they showed a desire to get away from him, he used to put his hand menacingly on his sword. He, too, has gone to a better world. There is now only one eccentric, and he is called the Persian. He is so designated because he wears the Persian costume and the Persian head gear in black sheep-skin. He is a venerable old gentleman, with a fine beard, and is scrupulously neat and clean. He is passionately fond of music, and is to be seen, every night, at one of the opera houses, seated always in the very best places. He is also frequently to be found lounging on the boulevards and in the Champs Elysées. He has the reputation of being wealthy. Yet this man, though in Paris more than thirty years, though he is well known by sight to all Parisians, has never, it is said, conversed speaking to a living soul. He frequents the haunts of men, yet shuns communication with man. There are many tales told about him; one is that he ran away from his own country with a prodigious quantity of diamonds; another that he got a large sum from the English Government for poisoning an Indian prince; but these tales must be false. What is certain is that nobody knows his name, and that he has never told any one why he came to Paris, why he stops there, or whence his money comes.

Real Estate.

The Daily News

NEWPORT.

Saturday, May 11, 1867.

EMIGRATION TO THE SOUTH.

In no way could the reconstruction of the South be more effectually aided and secured on the best basis for forming an improved society in that section than by its occupation by the substantial and enterprising men of the North. The introduction of our implements and methods of industry and the infusion of Northern go-ahead-tiveness would have a regenerative effect in a region that has long suffered from the sluggish and degraded modes and persons of the laborers. In our rigorous climate and on the comparatively unyielding soil of large portions of New England are thousands of men who might make great improvement in their condition by taking possession of some of the vacant Southern lands and applying their habits of industry and enterprise.

A question of the first importance is, whether such men would be permitted to pursue their vocations without molestation; and the reply, from observations of the experiment already successfully made, is in the affirmative. The assurance is also given by leading Southern men that no such disturbance would ensue. If this assurance had been given, and Northern men could have felt secure in all the rights of action and speech which they possess at home, hundreds of thousands would have flocked southward soon after the close of the war carrying their capital and their ideas, to the immense benefit of the whole country.

Northern men will not take their business to Southern cities, or their industry to Southern farms in the expectation of meeting the old prescription of speech and action, or the social exclusion which is not entirely abolished yet. Let this be corrected and aid will be given to make that desert "blossom as the rose."

The European Conference.

The assembling of this body has been hailed with satisfaction in the hope that through its interference the peace of Europe may be preserved. Of course, it can do nothing but give advice, and that will be followed only as it is in agreement with the parties most nearly concerned, or is able to fix on some intermediate line of conduct by which each may be made content to forego the trial of battle. For France and Prussia to engage in a sanguinary war on an occasion of no greater importance than that in dispute respecting the Duchy of Luxembourg would be an incalculable calamity not only to themselves but to the rest of the world; and it is in this view of the case that the European Powers have undertaken the office of mediation. The humanities of the question are wholly on the side of peace, but the self-will and pride of the contending sovereigns prompt to more violent measures. There is also a partially latent feeling in the army of each nation in favor of testing the supremacy of Europe in a trial of physical force.

Recent events have placed Prussia in the front rank of European nations, and her military successes have given her a prestige which the army of France previously held, almost without dispute, as the foremost in bravery and martial skill. This is a concession which neither Napoleon nor his army will easily grant. Nor is it probable that the opportunity for testing it in the field will be allowed to pass unless most potent considerations be presented for a peaceful policy, and the question be so placed before the sovereigns as to make war inexcusable.

To the view of a looker-on there are strong reasons why France should not go to war at the present moment. The finances and the material of the Empire are in no condition to enter upon an exhausting campaign, and the condition of Napoleon's personal energies, together with the numerous causes of anxiety pressing on him tends to the same decision. On the contrary, the uneasiness of his people and the decline of his personal popularity render some act necessary which may arouse the military ardor of the French and attach them to his person and his dynasty by such achievements for the glory of France as always awaken their enthusiasm and make the actor in such scenes a popular idol.

With the scales so evenly balanced, it will be a easy task for the Conference to satisfy Napoleon; while the position which Bismarck holds with the Prussians and before all Europe, may render it easier for him to yield to any accommodation which the Conference may recommend. The impression on this side of the Atlantic is quite general that a peaceful solution of the complications will result from the deliberations of the Conference. Though the wish may be father to the thought, such a termination is most devoutly to be desired on all accounts.

The Maryland Convention.

From Washington we learn that the "Conservative" State Convention at Annapolis, Md., is attracting great attention throughout Maryland. The Convention was called in defiance of the Constitution of the State, and by less than one-third of the white voters. A large number of the delegates are men notorious during the past five years for hostility to the Union and open sympathy with the confederacy. Judge Carmichael, the presiding officer, has been a malignant opponent of the government. He was confined in Fort McHenry during the war for alleged disloyal practices as Judge. He was the author of several of the most obnoxious measures to unionists in the last legislature, and his last speech there was in denunciation of the amendment to the Constitution. The ex-Mayor of Baltimore, Mr. Brown, and Mr. Kilbourn, ex-Speaker of the house of delegates, both of whom were arrested by order of General McClellan and confined in Fort Warren, are members. The first act of the Convention was in disregard of the law under which it assembled, which prescribes an oath to be taken before any member shall enter upon his duties. The Convention proceeded to business without taking any oath, and subsequently appointed a committee to select one, and invited Judge Magruder, who stands indicted for violating the laws of the United States, to be present to administer this substitute for the prescribed oath.

THE RED RIVER SETTLEMENT.—If there are any parts of the British possessions to the north of us which seem likely to become disintegrated and to drop into our ownership, they are British Columbia, and the region now known as the "Red River Settlement." The people of the latter region have the most reason to pray for annexation. Their trade and communications all seek a channel by way of Minnesota, and the people are well-nigh isolated from their loyal fellow colonists.

The worst feature of their condition, however, is the fact that they have not even the advantages of colonists, for they are ruled by a trading company from whose injustice there is practically no appeal. The *Northwester*, the organ of these people, says in a late issue that the feeling against a continuance of this state of affairs is becoming so strong that the propriety of assuming "squatter sovereignty" is openly discussed. It doubtless expresses the common sentiment when it says:

"That a fur-trading monopoly can have any interest in common with a farming, grazing and mining community is felt to be impossible; it is a government which will sell you saltpetre, wills or writing paper, will furnish you as part of their business, with liquor or marriage licenses, pemmican, law, justice, painkiller, powder, peanuts, or in fact anything that is in their line of trade. They aim to be an independent monopoly, and accordingly, may interpret and execute their own laws, grow, grind, and bake their breadstuffs, and carry their own freight, and in fact are practically not dependent on the people for anything."

The unequalled wheat region which extends from St. Paul to the Red River settlement will before many years be the home of a vast, prosperous and homogeneous population, all of whom will virtually belong to the United States, although they may possibly be separated for a time by imaginary political lines, to their and our injury.—*N. Y. Post.*

THE ALLEGED RIOT IN NEW YORK.—The New York Police authorities have definite and detailed information of an organized conspiracy to resist the enforcement of the excise and other laws obnoxious to the lower classes in that city, by a resort to violence and bloodshed. The Times says:

For several weeks past the disaffected population in the different wards have held frequent secret meetings at various points. At these gatherings the language used has been of the most hostile and bitter character. Speakers have alluded to the dreadful scenes enacted during the draft riots of July, 1863, with evident relish, as though they regarded them as triumphs. The Police and the Excise Commissioners have been cursed and threatened with vengeance for their strictness in carrying out the provisions of the laws. A large number of these liquor dealers who have been denied licenses have taken an active part in these gatherings, and they have spoken with strong resentment of the destruction of their business. In short the meetings are described as having been wild and frenzied in their denunciation and threats of vengeance.

Fully aware of the proceedings, the Police Commissioners, through Superintendent Kennedy, have placed a select number of reliable special detectives on the alert, and these officers succeeded in obtaining access to the meetings, in some instances taking part in them, when they deemed themselves to be objects of suspicion. The detectives have "spotted" nearly every prominent leader in the movement; and in some cases they have kept continuous watch upon their daily movements.—The Superintendent of Police has the names and residences of all these ringleaders, and the details of the entire movements are fully known.

In this connection the Times gives a few figures relating to casualties occurring during the riots of 1863. The police have ascertained beyond doubt that there were eleven hundred and fifty-five persons killed or died of their wounds received during the 13th, 14th, 15th and 16th of July, 1863. Of these there were twenty-five soldiers, policemen or negroes killed, leaving the number of rioters who met their deaths from wounds received eleven hundred and thirty.

In Richmond, on Tuesday, one of the colored jurors of the U. S. Circuit Court, attempted to ride upon the cars exclusively devoted to white people, and when ordered to get off obstinately refused. The conductor called a policeman, who arrested the persistent juror but no breach of the peace having been committed he was discharged. In disgust at this treatment he reported the matter to the Circuit Court, and was instructed by the Judge to demand the names of the car officials. This he did, but was refused by the company's clerks. Thus the affair stands until new complications arise.

The New Orleans *Crescent* learns from passengers arrived from the Ouachita river, that the whole region of country, bordering the Black and Ouachita rivers, from Columbia down, is overflowed, and that there are signs of another flood coming down the latter river. The suffering among the people is very great, and men who before the war were worth from one hundred to three hundred thousand dollars, are now reduced to absolute poverty.

A traveller, who has just returned from journeying through Africa, says: "A savage holds to his cows and to his women, but especially to his cows." He adds: "The price of a good-looking, strong young wife, who can carry a heavy jar of water, is ten cows. Throughout savage lands, a family of daughters is exceedingly profitable."

Items.

There are two thousand "unknown" graves at Chattanooga.

Nashville expects to make seventy-five millions of bricks this year.

It is said that George Francis Train is to build a large hotel at Omaha, where he owns lots of land.

At the recent fire in Cincinnati, ten thousand boxes of candles were melted in the basement. The grease puddle is valued at $30,000.

An English paper says the purchase of Russian America by the United States is of the nature of Sherman's tactics, "a march upon the enemy's flank."

A young man named Charles Comstock died very suddenly at Warren, Conn., on Sunday night last, from the effects of swallowing a fragment of oyster shell.

A company is being organized in San Antonio, Texas, to build a cotton and woolen factory mill that will run about sixty looms and cost two hundred thousand dollars.

A woman in Davenport, Iowa, who was not married by the man she wanted, sued him recently for $11,25, expenses for lights and refreshments during courtship.

A tenant in the neighborhood of the Astor house, was thus accosted by his landlord: "Brown I am going to raise your rent." Brown replied, "Sir, I am very much obliged to you, for I cannot raise it myself."

The desire to emigrate to Brazil is on the increase in Alabama. A number of emigrants are said to be at present in Mobile awaiting transportation to the new home they have chosen.

A young elephant arrived in Havana a few days ago, and going up the street, stepped into a saloon, thrust his trunk into a cask of lager beer, drank it all up, and left without paying.

In the hurricane on Sunday the Mississippi burst the banks below New Orleans, destroying the telegraph line for a considerable distance. The extent of the damage is not known.

The Daily Wisconsin tells us of a man hale and vigorous with a rifle-bullet still in his brain, received at the battle of Bull Run. He was in hospital for a year, but can now swing an axe or cut wood with anybody.

A negro on being questioned as to the condition of a friend who had been seriously injured, replied, "Well he hab two chances, a chance to lib, and a chance to die: can't tell which he's gwine to take."

One of our ex-Mayors, the other day, observing a large stone lying near his gate, ordered his servant, with an oath, to send it to Purgatory. "If," said the servant, "I were to throw it to Heaven it would be more out of your honor's way!"

The New England base ball convention was held at Boston on Tuesday, and ten new clubs were admitted and the special rules for the government of matches for the champion silver ball revised and amended.

The notorious rebel naval commander Hollins the inventor of the device called a "turtle," which was much used in the Mississippi in the early part of the war, has been appointed clerk of the court presided over by the newly elected Judge Scott in Baltimore.

Bed bugs, according to a lady, have a great aversion to salt. She states that if the article and place infested with bed bugs are washed with salt water, and the crevices in which the vermin hide are filled with it they will give no more trouble.

A man actually tendered a silver half dollar in the Savannah News and Herald office Thursday, in payment for a copy of the morning's edition. He was about six feet high, dark complexion, with a cane and briar-wood pipe. He was apparently sane.

Those of our readers who need anything in the way of Cosmetics or Toilet Articles, would do well to patronize the firm of Berger, Shutts & Co., Troy, N. Y. They are the only Agents in America for many of the most valuable French and English Toilet Articles and Preparations that are used by the Beauties of the Old World, to beautify and make attractive their person.

MRS. BLACK'S VEGETABLE HAIR RESTORER.

This fine vegetable Hair preparation is now universally acknowledged to be far superior to all Hair preparations in the market. It is not a dye, but in all cases restores the Hair to its natural color. For restoring the Hair where it has fallen off, it has no equal; it has been proven time and again. As a Hair Dressing it cannot be surpassed. It is a sure cure for the Headache, removes all Dandruff, Heat and Humors of the Scalp, keeps the head cool, the hair moist, and gives it a fine glossy appearance. In short, it is just the thing that has been wanted for a long time. Give it one trial and we warrant satisfaction.

Send for circular containing Boston references.

Sold by all Druggists. Principal Depot HIBBERT & CO., 13 Tremont Row, BOSTON.

SCHENCK'S MANDRAKE PILL.

A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

TO give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the heart, brain, and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in the manner: The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream closed forward backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of alteration, while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some compounds, the basis of which is mercury, or else in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and cure and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz., Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 38 Bond Street, New York, and 33 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full sketch of all these rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $15.00 the half dozen. Mandrake Pills 25 cents per box.

GEO. C. GOODWIN & CO., 38 Hanover Street, Agents for Boston. For sale by all druggists.

CONCENTRATED

EXTRACT OF RYE.

THE Proprietors of this popular article, find it necessary to remove a wrong impression from the public mind regarding the real merits which they claim for it,

WOULD ONCE AGAIN ANNOUNCE

THAT

IT IS NOT

a more dram-drinking beverage, but a TRUE GENUINE, and SCIENTIFICALLY PREPARED

MEDICINE.

It is not as many have been led to believe, nothing but good Rye Whiskey; it is a

MEDICINAL REMEDY,

specially designed for certain useful and beneficial purposes; which any intelligent and thinking person can readily see, by reading what we now have

TO SAY ABOUT IT,

without any long, half sounding words, such as some doctors use to mystify and bewilder a patient until he can't begin to tell what does ail him. We SIMPLY AND PLAINLY SAY that "EXTRACT OF RYE" is nothing but the

Juices of the Grain,

combined with a certain oily, fatty, and vegetable matter, which, when taken into the system, stimulates it first to

NEW LIFE,

and a restored appetite, and then goes to make BETTER and STRONGER

FLESH AND BLOOD.

One can instantly see how this preparation must soothe the throat when it is inflamed, and must carry its invigorating and fattening effects to the lungs; consequently

IT IS WHAT YOU WANT

when you have a bad cough, to cure it, or when you have

CONSUMPTION OF THE LUNGS,

to heal and build them up again. So much for those troubles.

Now if you want an article TO FEED THE SYSTEM ON, when it has become reduced by sickness or by being OVER-TAXED IN ANY WAY, this medicine will

DO THE WORK.

We have, among a great many letters we have received about it, a great many positive testimonials that it has been the means of making people

Gain Flesh and Grow Fat.

The reason for this is the

GRAND SECRET OF THE WHOLE MATTER.

It acts as a

STIMULATING FOOD

to the body, and helps Nature

THROW OFF DISEASE.

How often, of late years, have people been terribly deceived by resorting to common whiskey for this purpose, when, if they knew it, the only advantage to be gained from the use of whiskey must spring from the little quantity it contains of that of which Extract of Rye is *entirely composed*.

This, then, is the whole story. EXTRACT OF RYE will cause you to throw off disease by feeding the system with a

STIMULATING FOOD,

and will build up and restore the powers of mind and body, while you become fat and happy.

It is put up in convenient style, each bottle being contained in a paper box. It is not sold at a foolish fancy price, but offered at a reasonable cost to rich and poor.

MANUFACTURED AND SOLD BY

C. A. RICHARDS & CO.

Wholesale and Retail Dealers in all the best kinds of Wines and Spirits,

99 Washington st., Boston.

For sale by Grocers, Druggists and Country Stores all over the United States and British Provinces.

May 10 1867.—3mos—3taw.

NOTICE.

CITY MARSHAL'S OFFICE,
Newport, May 10, 1867.

AN ordinance in relation to sidewalks.

SEC. 1. No person shall deposite, place, or put, or suffer to be deposited, placed or put, by any persons in his or her employ, any goods, wares, fire wood, coal or article of any kind, on such sidewalks except while actually removing the same into or out of some building or enclosure. Every person so offending shall forfeit and pay for every offence not less than two, nor more than ten dollars.

P. S. The above ordinance will be strictly enforced on and after Monday next, May 13th, 1867.

THOMAS B. TILLEY,
City Marshal.
may 10—3t

MARINE INTELLIGENCE.—Messrs. Benjamin Finch and Joshua Sayer have purchased schr. *Moonlight*, of Greenport, 268 tons, twelve years old, built at Port Jefferson, L. I. She will hereafter hail from this port and be commanded by Capt. Judah Perry, late of schooner *Pocahontas*, owned by the same parties and sold for a whaler.

Schooner *Nicanor*, of this port, Capt. Hannah, which put into Key West 22d ult. in distress, was taken out on the railway and repaired, and sailed again 30th for Cardenas, to complete her lading of molasses for a port north of Hatteras.

STRAW MATTING 30 cents per yard at the BLUE STORE, Providence.

ACCIDENT.—From the Fall River News, we learn that Frank Gaines of Newport, a carpenter employed on the new house of Charles E. Case, corner of Rock and Bank streets, in that city fell from the roof yesterday morning, to the ground, a distance of some thirty feet. Fortunately no bones were broken, though he was severely shaken up and bruised. When he had fallen about twelve feet, he struck some beams which partially broke the force of his fall. He was conveyed to his boarding house in Granite Block, and Dr. Dwelly called.

Call at the BLUE STORE, Providence, and examine goods and prices.

The Hartford Live Stock Insurance Company insures horse, cattle and sheep against death from fire accident or disease of any kind. Many of the best spans of horses in Rhode Island are covered by policies, as are also some of the finest herds of cattle. The rates are such that it is an object for every man to avail himself of the advantages of this new and popular style of insurance. The poor man cannot afford to lose his horse, the rich men dont want to.

Fine lot of ingrain Carpets just received at CUNNINGHAM'S Emporium, Providence, at 50 cents per yard.

IT is said that the Bristol and New York Steamboat Company have purchased the Hunter, Moss Bank and Mayberry estates, on the Point, with a view to touching at Newport on their way to and from New York. If this should prove true, there will henceforth be no lack of steamers hereabouts, or of opportunities to go hence to New York.

The Arctic Refrigerator is sold at B. P. CUNNINGHAM'S, 132 Broad street, Providence.

COURT OF JUSTICES.—The case Demond was again postponed, this morning, owing to the absence of witnesses.

THE PARK HOUSE, injured by fire last winter, is being repaired. The sides are to be pieced up and a hip roof put on, with dormer windows. Messrs. Cranston & Burdick do the carpenter work.

Fancy Straw Matting at 25 cents per yard at B. P. CUNNINGHAM'S 132 Broad street, Providence.

AUCTION SALE OF BANK STOCK.—Wm. E. Dennis, Auctioneer, sold this morning on Administrator's Sale the following Bank stock:

Three shares	Aquidneck National,	$52.75
Seven "	R. I. Union,	103.00
Five "	First National,	118.00

PERSONAL.—Charles F. Pond, Esq., President of the Hartford and New Haven Railroad, died at his residence, in Hartford, at seven o'clock last evening of paralysis. Mr. Pond has been president of this road for some twenty-five years. He has numerous friends in this city who will be pained to hear of his decease.

The Providence *Post* has been discontinued for lack of patronage. Its last number was issued today.

One of the most peculiar advertisements that we have placed in our columns for a long time, will be found in to-day's issue. We refer to the one about *Extract of Rye*. The plain and candid manner in which the explanation is given of the merits which Messrs. C. A. Richards & Co. claim for their article, it seems to us, must carry conviction to the reader, and cause him to try the article itself for further proof of its intrinsic worth, and as a test of its medicinal qualities.

Spring is the time in which to cultivate and admire flowers. A large variety may be seen at Smith's near the Atlantic house where plants are exposed for sale at cheap prices. Every family should cultivate them in the house and garden.

New Publications.

EVERY SATURDAY, No. 72, has an unusually numerous list of articles. They are: Sainte-Beuve's Sketch of Victor Cousin; The Burning of Wildgoose Lodge; Easter Eggs; A Quiet Spot; Mrs. Brown's Catastrophe; A Paper of Tobacco, by Arminius Vambery; Rococo Minds; Sailing in the Air; Unthrift of Time; Novel-Writing as a Modern Accomplishment; Anacharsis Clootz; In Durance Vile; Foreign Notes; Green Things Growing, by the Author of "John Halifax;" Sonnet—Spring; The Song of the Crocus.

Religious Intelligence.

THE REV. DR. PALMER, of Stonington, Ct., will supply the pupit of the Central Baptist church, to morrow.

The Rev. D. S. Tuttle was consecrated Bishop of Montana, at Trinity chapel in New York on the 1st inst., the Right Reverend Bishop Hopkins, of Vermont, presiding.

The colored Congregational church in Charleston, S. C., is said to be the only colored Congregational church in the South. The pastor of this church is Rev. E. W. Merrit, and his salary is paid by the First Congregational church of East Hampton, Conn.

An excellent young lady of culture, refinement and intelligence was refused permission to unite with the Walnut Street Baptist Church at Louisville, Ky., the other day, in accordance with the advice of the pastor, solely because she had been a teacher in a freedmen's school.

It is said that in no previous year have so large additions been made to the Congregational churches of New London county, Conn., as during the year 1866. Several of the churches were doubled in strength and character. In Lebanon, twenty-one of the additions were heads of families.

The *National Baptist* says: A brother writes from New Orleans:—"The prospects of the Baptists in this city and vicinity are growing brighter. The Sunday schools are in a flourishing condition. The work of grace in the Coliseum Place church is powerful in the conviction and conversion of many souls, the majority of whom are in the full vigor of life."

The Presbyterian mission among the Creeks and Seminoles in the Indian territory was broken up when Albert Pike misled these poor people into rebellion. Since those who are left have returned to their home, the missionaries have resumed their work. It has been deemed advisable now to organize the Christian Seminoles into a separate church. Mr. Ramsey, the missionary, reports sixty-six members already gathered in, with nearly as many more who were prevented by distance and severe weather from attending his meeting.

A lady of Baltimore died last March who had been a member of the Methodist church eighty-three years. When she joined it was a day of small things; she was only eleven years old, and the entire denomination in America numbered all told, only 1,080 members. But the day of small things was not to be despised. She lived to see the petty denomination she gave her little heart to number more than two millions of souls.

The plan of missionary labor in concert saloons inaugurated by the Providence Young Men's Christian Association, is being following out in New Haven, where some eight or ten active workers visited a den on Union street Thursday evening, and after conversing with the young men in it about the interests of their souls, obtained permission to sing some church hymns. The effect upon some of the inmates was quite noticeable. It is proposed to hold brief prayer meetings there in future.

The Rev. O. B. Webster was installed as minister of the First Unitarian Society of Binghamton, N. Y., April 24th. The *Christian Register* says: "The weather was unpleasant, yet the little meeting house was filled—not a few of the persons gathered finding themselves at a Unitarian or Liberal service for the first time. The newness of the Society, its rapid and substantial growth, its extremly broad and radical character, the purely Congregational form of the service, together with the brilliancy and power of the conspicuous parts of it, made an occasion of unusual interest."

The annual convention of the Episcopal Church of Massachusetts took place at Trinity Church, Boston, on May 1 and 2. Bishop Eastburn's annual address shows that 777 persons have been confirmed, 4 deacons and 7 priests have been ordained, 2 churches have been consecrated, and 7 parishes have been organized. The address spoke of the donation of $100,000 by Benjamin T. Reed, for the establishment of a divinity school at Cambridge, which the Bishop considered a very important event.

PORTUGAL.—Protestantism is strengthening and extending itself in this most bigoted land. The present rising is favorable to religious toleration, and Protestant missionary societies are therefore improving the opportunity of gaining a firm footing. The British and Foreign Bible Society are informed of an increasing readiness to buy the sacred books of the society's colporteurs, regardless of the displeasure of the priests. Both in Lisbon and Oporto, English men and women are laboring in a quiet way, and are meeting with their reward in gaining souls to the cause of Protestant truth and freedom.

As every one knows, Sunday is the great gala day of Paris, and of course the day when all kinds of amusements are specially patronized; judge of the surprise, then, of those charming and light-hearted people, when, at a recent meeting of the English and American Exhibitors at the Great Exposition, the following resolution was passed:

That this meeting of British, American and colonial exhibitors is of opinion that the services of attendants should not be required on the Lord's day; and they trust their fellow exhibitors will unanimously agree in carrying out this resolution.

Latest News

THE CASE OF JEFFERSON DAVIS.

HE IS TO BE TAKEN TO RICHMOND TO-DAY.

FORTRESS MONROE, May 10.—The writ of habeas corpus in the case of Jefferson Davis was served this morning on Gen. Burton, by Marshal Underwood and Deputy Marshall Duncan. Gen. Burton first decided to deliver Mr. Davis over to the custody of the Marshal to morrow morning, but afterwards determined on obeying the writ literally—requiring him to produce Davis before the Richmond Court. Davis and family, Gen. Burton, and the Marshals, take the steamer to morrow for Richmond, and will stop at the Spottswood Hotel. Gen. Burton on Monday will produce the prisoner in Court. In the event of Davis being released by Judge Underwood, under the writ, he will be immediately rearrested and placed on trial under the indictment for treason. Robert Ould, and numerous other visitors reached here this morning bearing bouquets and other presents to Davis and his family. The utmost interest and anxiety are manifested in Norfolk, respecting the probability of the trial and release of Davis.

The following is a copy of Gen. Burton's orders:

War Department.
Washington, May 8, 1867.

Brevet Brig. Gen. H. S. Burton, U. S. A., commanding officer at Fortress Monroe:

The President of the United States directs that you surrender Jefferson Davis, now held confined under military authority at Fortress Monroe, to the United States Marshal or deputies upon any process which may issue from the federal court in the State of Virginia. You will report the action taken by you on this order and forward a copy of the process served upon you to this office.

By order of the President:
E. D. TOWNSEND, Asst Adj. Gen.

FROM WASHINGTON.

WASHINGTON, May. 10, 1867.

The Attorney General has prepared instructions to the Military Governors at the South, which will much restrict their exercise of power, and they will be submitted to the Cabinet to-day.

The conduct of Gen. Sheridan is much complained of by the secessionist at New Orleans.

Secretary Wells has detailed Captain John C. Howell, Chief Engineer William Roberts and Surgeon M. Finckney as members of the Board of Examiners at the Naval Academy.

The War Department has given up the plan of having cast iron head blocks, coated with zinc, placed over the graves of the Union soldiers interred in national cemeteries, on account of the galvanic action of the two metals, which decomposed both. A Board is in session to decide what material shall be used.

RECONSTRUCTION IN SOUTH CAROLINA.

CHARLESTON, S. C., May 9. Gen Sickles has issued a long order establishing regulations for the appointment of boards of Registration, and for carrying into effect in the districts of North and South Carolina the Military Reconstruction Act.

CORDIAL RECEPTION OF SENATOR WILSON AT AUGUSTA, GA.

Judge Kelley Welcomed to New Orleans.

NEW YORK, May 10.—Senator Wilson was honored with a torchlight procession of colored people at Augusta Ga., on Wednesday night. He spoke in Atlanta yesterday. His audience was more largely composed of whites than usual, and he was introduced by a thoroughly reconstructed rebel colonel. Gen. Saxton, Gen Pope, ex-Governor Brown, and many prominent citizens occupied seats on the platform. The colored Republican Union Club was on the ground with transparencies, mottoes, &c. A dinner was given to him in the evening by Governor Brown.

Judge Kelley arrived in New Orleans yesterday, and was welcomed by a committee of citizens, headed by the Mayor and Common Council. Among the delegation were several colored individuals. The Judge responded to the welcome at the St. Charles Hotel to a large and variegated audience. He will address the public formally on Saturday.

No. 1, THE CHINGARORA ANTI-NERVOUS Smoking Tobacco!

The CHINGARORA TOBACCO grows from the rich soil of the "ORIENT," and is possessed of a peculiarly delicious flavor entirely unknown to the tobaccos of all other climes. But its unprecedented popularity has sprung from the fact of the entire absence of that deadly poison, *Nicotin*, which permeates every other tobacco, and which is the one and sole cause of the distressing nervous diseases, dyspepsia &c., which most invariably, sooner or later, follow the indulgence of the pipe and cigar. At the recent analyzation of tobacco from all parts of the world, at the Academy of Sciences, in Paris, the renowned Chemist M. Lawoumaux, declared that while European and American tobacco contained fully eight per cent. and the best Havana tobacco from two to five per cent. of *Nicotin*, the CHINGARORA did not contain one distinctable particle of that deadly poison, a drop of which, extracted, will destroy life.

Our agent at BOMBAY has shipped us large quantities of the CHINGARORA during the past two years, and although we have been pressed to supply the demand for this delicious luxury to the veteran smoker, yet we are now prepared to offer it in unlimited quantities, at a price much lower than some American tobacco of a far inferior quality.

A connoisseur has but to smoke the American tobacco and segars, which are invariably chemically flavored, to be disgusted with the medicinal taste which leaves a nauseous, unhealthy coating in the mouth and in time seldom fails to shat of the nervous system.

The natives of the "ORIENT" smoke the CHINGARORA from morn till night, from youth to age, and are happily unconscious of the wild, distressing fire which courses through the veins of the inhaler of the fumes of tobacco containing *Nicotin*.

We invite every lover of the weed to try the CHINGARORA, and guarantee unprecedented pleasure in its delicious flavor. Sold everywhere at $1, a pound.

LEA & PERRINS'
CELEBRATED
WORCESTERSHIRE SAUCE

PRONOUNCED BY CONNOISSEURS TO BE THE "Only Good Sauce" AND APPLICABLE TO EVERY VARIETY OF DISH

EXTRACT of a LETTER from a MEDICAL GENTLEMAN in MADRAS, to his Brother at WORCESTER, Dec. 1855.

"MY DEAR LEA & PERRINS, Some of your WORCESTERSHIRE SAUCE was recommended to me by a friend, as a most delicious condiment, and I assure you I find it the most agreeable sauce I ever tasted. Please to apply to the Agents to forward me, per first opportunity, a dozen more of the same excellent sauce."

Genuine is respectfully and earnestly requested to observe that the names of LEA & PERRINS are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

Manufactured by
LEA & PERRINS, Worcester.

DIRECTIONS
FOR
MAKING YOUR OWN SOAP
With Your Waste Grease.

Penn's Salt Manufacturing Co's
RENOWNED
Saponifier!
(Patents of 1st and 8th Feb., 1853.)
OR
CONCENTRATED LYE.
2 Cents only for every pound of Soap.

DIRECTIONS.

Dissolve one box of lye in 2 1/2 gallons of cold hot water, in an iron pot. Next in another pot put 5 lbs of clean fat or grease. Take one pint of the lye and into this stir slowly the grease, stirring until the whole becomes well united like molasses. Now cover up, and set in a cool place over night. Next day cut a hatchet or knife across 6 lbs (or pints) of water, and stir with another half hour until the soap is all dissolved, then pour into tub to cool. When cold cut into bars, which will be fit to use in about 10 days.

BEWARE OF COUNTERFEITS,

be particular, asking for Penn's Salt Mfg. Co's Saponifier.

DIABETES,
STONE IN THE BLADDER, CALCULUS,
GRAVEL, BRICK DUST DEPOSIT, AND
MUCOUS OR MILKY DISCHARGES
AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS,
CATARRH OF THE BLADDER.

STRANGURY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that most distressing pain in the small of the back and through the hips? A teaspoonful in a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

Stroudsburg, Jan. 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I trudged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
MRS. MARGILE C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lacinating or shooting pains through the parts, will in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak most particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flushes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, Pa., June, 1862.—*Dr. Wm. H. Gregg—Dear Sir:*—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty four hours. I was obliged to get up as often as ten or twelve times during the night, and in two months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H. Gregg & Co.—Gents:*—I freely give you liberty to make use of the following certificate of the value of Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder.* I called a physician, who attended her about three months, when she left her worse than he had found her. I then employed one of the best physicians I could find, who attended her for about nine months and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For,*" said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.* About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BENSCHOTEN.

WETHERSFIELD, Conn., March 2, 1863.—*Dr. W. Gregg.—Dear Sir:*—Having seen your advertisement of Constitution Water, recommended for inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Bisson & Co., and when I had used half of it, to my surprise, I found a great changer in my health. I have used two bottles of it, and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommend it to be. May the blessing of God ever attend you in your labors of love.

Yours truly,
LEONARD S. BIGLOW

THE ARCTIC

REFRIGERATOR.

INVOLVING a new and most important principle in the preservation of Meats, Game, Fish, Vegetable, Fruits, &c., with great economy in the use of ice, constructed on the most perfect scientific principles, and warranted to be the most effectual, complete and

Perfect Refrigerator

ever yet offered to the public. In the ARCTIC REFRIGERATOR the air is in perpetual circulation as long as it contains any ice, and no ventilation from the external air is permitted or needed, on account of the constant purification of the air by its passage through the ice. A piece of wet paper or wet cloth hung up anywhere in the "Arctic" will become Dry in fifteen to thirty minutes. The air is filtered, as it were, through the ice, and all its impurities and odors are condensed upon the ice and pass out dissolved in the waste ice water, the air passing freely down through the ice and ice box, but the construction is such that the water does not drop upon the shelf below, but it all concentrates to a common channel of discharge. All the required effects of perfect refrigeration and dessication are obtained with a small amount of ice, the consumption of ice being no greater than in the common small sized refrigerators.

This refrigerator is made of well seasoned stock and lined with white wood, which causes no smell or taint as zinc does. Professor C. D. PAGE, of the Smithsonian Institute, at Washington, says the Arctic is the only refrigerator thus far known which accomplishes a complete dessication and refrigeration of the whole of the contained air with economy of ice.

Know Thy Destiny.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometrope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y.

CRISPER COMA.

Oh! she was beautiful and fair,
With starry eyes, and radiant hair,
Whose curling tendrils entwined,
Enchained the very heart and mind.

CRISPER COMA,

For Curling the Hair of either Sex into Wavy and Glossy Ringlets or Heavy Massive Curls.

By using this article Ladies and Gentlemen can beautify themselves a thousand fold. It is the only article in the world that will curl straight hair, and at the same time give it a beautiful glossy appearance. The Crisper Coma not only curls the hair, but invigorates, beautifies and cleanses it; is highly and delightfully perfumed and is the most complete article of the kind ever offered to the American public. The Crisper Coma will be sent to any address, sealed and postpaid for $1.

EXCELSIOR! EXCELSIOR!!

CHASTELLAR'S

Hair Exterminator!

For Removing Superfluous Hair.

To the ladies especially, this invaluable depilatory recommends itself as being an almost indispensable article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price 75 cents per package, sent post-paid, to any address, on receipt of an order, by

BERGER, SHUTTS & Co., Chemists,
285 River St., Troy, N. Y.

Feb-27—1y d

ASTROLOGY.

The World Astonished.

AT THE WONDERFUL REVELATIONS

MADE BY THE GREAT ASTROLOGIST

Madame H. A. FERRIGO.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, calamities, cross in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the mystic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Call not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Address, MADAME H. A. FERRIGO,
P. O. Drawer 293, Buffalo, N. Y.

There cometh glad tidings of joy to all,
To young and to old, to great and to small;
The beauty which once was so precious and rare,
Is free for all, and all may be fair
By the use of

CHASTELLAR'S

WHITE LIQUID ENAMEL.

For Improving and Beautifying the Complexion. The most valuable and perfect preparation in use for giving the skin a beautiful pearl-like tint, that is only found in youth. It quickly removes Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin, kindly healing the same leaving the skin white and clear as alabaster. Its use cannot be detected by the closest scrutiny, and being a vegetable preparation is perfectly harmless. It is the only article of the kind used by the French, and is considered by the Parisian as indispensable to a perfect toilet. Upwards of 6,000 bottles were sold during the past year, a sufficient guarantee of its efficacy. Price only 75 cents. Sent by mail, post-paid, on receipt of an order, by

FELLOWS'

WORM LOZENGES

Are, without exception,

THE MOST EXTRAORDINARY

Medicine of the Age,

Comprising as they do,

Remarkable Power in Expelling Worms

With Pleasant Taste and Perfect Safety;

They contain no Mercury, no Mineral, no Turpentine, no Oil of Wormseed, no Poison, Nothing Injurious.

They are Entirely Vegetable.

SYMPTOMS OF WORMS:

ITCHING of the nose, fever flushes, twitching or starting suddenly during sleep, pain in the stomach, loss of flesh, paleness with hectic, appetite sometimes voracious, at others feeble, a dullness of the eyes, drowsiness, a swelled upper lip, tongue white-ly furred, and studded with red spots, fetid or garlic breath, grinding of teeth during sleep, a sensation of objects in the throat, an unnatural craving for chalk, clay, or coal, restlessness and irritability of temper, choleic fits and palsy.

Intestinal Worms

Are among the first to undermine the constitution, in the list of disease. They often occasion severe diseases, ending some times fatally, particularly when they accord to the stomach. Their presence in the human ordinary situation is attended with unfavorable effects upon the general health.

EMINENT MEN ASSERT

That all are more or less troubled with worms, and that many die annually from this cause who, by the timely administration of a proper remedy, would be saved. As FELLOWS' WORM LOZENGES may be taken without any unpleasant result, and as children are fond of them, their use is recommended to those apparently healthy, and thus dispel the cause of what would produce suffering.

BE CAREFUL WHAT YOU USE.

Various remedies have, from time to time, been recommended, such as Calomel, Oil of Wormseed, Turpentine, &c., so that dangerous and even fatal consequences are produced. The necessity of a safe and sure remedy has caused much research and study by the proprietors of FELLOWS' WORM LOZENGES. They are positively safe, pleasant and effectual. They do not kill the worms, but act by making their dwelling places disagreeable to them. In order however, to guard consumers against deception by a base compound, the analysis of Dr. A. A. HAYES, State Assayer, proving the above statement, is annexed:

"I have analyzed the WORM LOZENGES prepared by Messrs. FELLOWS & Co., and find that they are free from mercury and other metallic or mineral matter. These Lozenges are skillfully compounded, pleasant to the taste, safe, sure and effective in their action.

Respectfully, A. A. HAYES, M. D.
Assayer to the State of Mass."

PLEASE REMEMBER

That FELLOWS' WORM LOZENGES are prepared with great care from the concentrated extracts of two plants. They do not act as a purgative or emetic, will not debilitate the patient, are so simple an infant may devour a whole box without harm, and will at the same time expel the worms in an extraordinary manner.

☞ FELLOWS' WORM LOZENGES is the only Worm remedy in existence, combining harmless qualities with delicious taste and amazing power.

TESTIMONIALS.

From persons of the first respectability in New Brunswick, concerning

FELLOWS' WORM LOZENGES.

From a Justice of the Peace.

ST. JOHN, N. B., May 12, 1865.

Messrs. Fellows & Co.—Gents: I accidentally sent the other day to a store for some Vermifuge; and the man not having much on hand, sent me some of your WORM LOZENGES. My children showed symptoms of worms at the time. I gave them according to directions, and in twenty-four hours from the time they commenced taking the Lozenges, one (a boy five years old) had passed twenty-five large worms; the other (a girl three years old) had passed twelve; and I deem it but just to say, that, from this slight acquaintance with your remedy, I feel satisfied that your Lozenges are cheap, convenient, safe, and more effectual than the ordinary remedies; and as such I cheerfully recommend to all heads of families.

Yours, with respect,
JOHN S. COLPITTS, J.P.

Rev. Mr. Jackson, Baptist Clergyman, writing from St. Martins, in reference to the WORM LOZENGES, says:

Messrs. Fellows & Co.,—Gents: It affords me great pleasure in saying that I have known in my own family, and in the families of others, wonderful effects produced in the destruction of worms by your WORM LOZENGES; and I can certify most conscientiously that I believe them to be the most effectual remedy that has ever been invented for the removal of worms from the human stomach; and I hope, gentlemen, in presenting such a valuable medicine to the world, that you may receive large patronage from the public in general.

I remain, sirs, yours truly,
WELLINGTON JACKSON.

St. Martins, N. B., Aug. 15, 1858.

Physician's Testimony in favor of Fellows' Worm Lozenges.

SALISBURY, July 30, 1856.

Messrs. Fellows & Co., St. John.—Gentlemen: I have examined your WORM LOZENGES, and have become acquainted with their effects as an *althenmintic*, and have much pleasure in recommending their use as a safe and effectual remedy for worms; and I fully believe that their employment as such will give satisfaction.

Yours, respectfully,
W. S. FOSHAY, M. D.

Letter from the Rev. Dr. Clay to the Editor of the Christian Visitor.

CARLETON, St. John, N. B., NOV. 11, 1855.

Mr. Editor:—I was induced to try FELLOWS' LOZENGES, having had a number of children under my care whose stomachs were so irritable the ordinary medicines could not be retained a moment; and the success that followed their use was so complete that I can recommend them as one of the most pleasant and safe medicines that can be administered.

EDWIN CLAY, M. D.

St. John, N. B., March, 1856.

Messrs. Fellows & Co.:—This is to certify that my little boy, aged six years, having been much troubled with worms of late, I administered four of your WORM LOZENGES, as per directions, and in nine hours after he passed several large worms. These Lozenges are particularly valuable, as the children are fond of them. You are at liberty to use this for the benefit of others. MATTHEW HARRISON.

St. John, N. B., Oct. 30, 1856.

Messrs. Fellows & Co.: It is due to you, the heads of families, and to the public at large, that I should give a statement of the effects of your WORM LOZENGES in my family. My daughter, aged about five years, had been troubled with a severe cough nearly two years, first in Dorchester, Mass., where our doctor attended her for some time; finding he did not help her, I procured syrups and other common remedies, without giving relief. Since I came to this city, I procured medical aid, and finding the child grew worse, so that we really thought she would die, we despaired of getting a remedy. At last a lady friend called in, and assured us that the child was troubled with worms, and that the cough originated from that cause. I administered your WORM LOZENGES this morning; we were astonished; the child passed over a pint of worms, and some as large as my little finger. Our babe, only seventeen months old, ate two Lozenges, and although seemingly healthy, it passed a worm at least eight inches long. I am happy to say that the little girl, who for five days had eaten scarcely anything, has a good appetite, and is now doing well. A. HATFIELD.

PRICE TWENTY-FIVE CENTS PER BOX,

Five Boxes for a Dollar.

This invaluable Medicine will be prepared for the present at the

New England Botanic Depot, Boston,

for the Proprietor, J. C. FRENCH,

The Signatures of FELLOWS & CO., is attached to each genuine box.
